Specifications

Aluminium with non-stick Quantum ® 2 for cookware coating

Compliant to the requirements set out in Art. 3 of Commission Regulation (EU) No. 1935/2004 of 27. October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, the material(s) used in these products are chosen for their technical quality as well as purity suitable for contact with foodstuffs. Current amended version with 2019/1381 (20 June 2019) is included.

The products listed above are manufactured pursuant to the requirements outlined in European legislation regarding labelling and traceability.

EU Commission:

In accordance with EU Commission Regulation no. 1935/2004 this product is intended for food contact. Therefore it can be marked with the "glass & fork" symbol either on the packaging or through labelling.

Products are manufactured according to EU Commission Regulation no. 2023/2006 on good manufacturing practices for materials and articles intended to come into contact with food (GMP).

1935/2004. As coatings applied to metal substrates are not covered by (EU) No. 10/2011 on plastic FCMs, compliance with 1935/2004 is tested according to applicable EU legislations such as Resolution AP (2004) 1, Spanish Real Decreto 847/2011, the Italian Decree DM 21 del 1973, and/or Germany's Kunststoffempfehlungen des BfR Recommendation, Chapter LI on Temperature Resistant Polymer Coating Systems for Frying, Cooking and Baking Utensils and/or Chapter XV on Silicones. Substances restricted by (EU) No. 10/2011 with specific migration limits were tested not to migrate over the SML when used continuously at temperatures of 260 °C or intermittently at temperatures of 300 °C.

Specific migration of metals. The aluminium substrates in these products meet the requirements of GB 4806.9-2016 regarding heavy metals when subjected to a 4% acetic acid testing for 24 hours.

REACH. These products comply with the requirements of (EU) 1907/2006/EC regarding Substances of Very High Concern (SVHC) currently listed on the European Chemicals Agency's Candidate List and the REACH Annex XVII.

Max. temp (foodsafe) 200 °C
Max. temp (warming) 200 °C
Min. temp: 5 °C. Use in refrigerator/freezer might accelerate product wear.
Suitable for: All foodstuffs and drinks.
Max. Wash temp.: Dishwasher-safe.

Date of issue: SE-Gothenburg the 15th of March, 2024.
Yours sincerely, **Thomas Pitel**
