

Declaration of Compliance

Description	Material	Article Number
<i>Doilies</i>	<i>Paper</i>	180592

Field of Application

The doilies can be used with all kinds of bakery ware. Recommended temperature range is between 5°C and 40°C. If used in lower refrigerator temperatures the paper can more easily absorb moist and become soft.

Limitations of the material:

- Paper is fibrous material and the as the surface of the doilies is untreated, they are not suitable for long-term storage.
- They doilies are not suitable to be used in a microwave oven.

Duni declares that the article meets the requirements of:

- Article 3, 11(5), 15 and 17 of Regulation (EC) No. 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food (Framework regulation).
- Commission regulation (EC) No 2023/2006 of 22 December 2006 on good manufacturing practice for materials and articles intended to come into contact with food (GMP regulation).
- Lebensmittel-, Bedarfsgegenstände und Futtermittelgesetzbuch (LFGB) of 20. December 2022.
- German BfR Recommendation XXXVI. Paper and board for food contact (BfR - German Federal Institute of Risk Assessment).

PFAS (per- and polyfluoroalkyl substances) are **not** being used in any step of the manufacturing of the products covered by this document.

Analysis of the material performed by an independent institute shows the tested samples meet the requirements mentioned above when used within the field of application.
